

How to create class lessons across the subjects using Microsoft PowerPoint (1000 free PowerPoint lessons to download, edit and use)

This **self-paced on-line course** focuses on how to create and deliver an effective lesson using Microsoft Powerpoint.

The on-line format of the course enables you to **study when and where you want** to learn. Content is divided into 5 modules which you can complete in any order **between July 1st and August 28th 2009**.

Participants are encouraged to interact with one another using the communication tools (forum, chat, e-mail) provided by the CPD College learning system. Active facilitation throughout the course provides expert interaction, guidance and feedback for all participants. Assignments and questions which call for critical reflection, self-analysis and a reasoned response punctuate this highly interactive web based course.

On completion of the course the participant will be presented with their own time record, exercise content and approval by the course facilitator as their CPD record to keep.

Learning outcomes:

Through engagement with the course content, teachers will be empowered to create and deliver lessons using the exciting medium of PowerPoint. They will be further encouraged to download, edit and share the thousands of existing PowerPoint lessons that exist on the internet as a result of the hard work of teachers worldwide. We anticipate that the knowledge and insights gained by participants will positively impact on classroom lessons & teaching in the coming year.

Modules:

01 - **Plan & start building a lesson** presentation, selecting a layout, inserting text and pictures. Download, view, study, edit and use sample Mathematics lessons.

02 - **Apply a theme** to the presentation, add some special animation features and how to run the show. Download, view, study, edit and use sample Literacy lessons.

03 - **Select various views**, to work in presenter view and how to select, download, use and manipulate the thousands of readymade & available templates. Download, view, study, edit and use sample Science lessons.

04 - **Print the slide show, rehearse timings**, explore various save as options and how to package for burning to CD. Download, view, study, edit and use sample SESE lessons.

05 - Teachers will be afforded **practice in using all Microsoft PowerPoint tools** & opportunities to combine all elements in the production of task based & specified lessons. Download, view, study and use sample lessons across various curricular areas.
